YOUR FUTURE, OUR PRESENT
Fundación Ibercaja looks to the future and addresses society’s new needs with one clear objective: to generate new opportunities for people and companies with a firm commitment to work for the development of the region.

It is a private non-profit organisation which had been operating since 1876 as a savings bank until its conversion into a banking foundation in 2014.

The Fundación Ibercaja has over 100 employees working in scheduling, management and promotion in four action strands: professional development and education, social action, culture and mobility.

It is headquartered in Zaragoza (Spain). However, it is also a national organisation since it has its facilities in another four Spanish cities (Huesca, Teruel, La Rioja and Guadalajara) where it runs some of its programmes and it also delivers a range of online services.

As it strives to build a better future, the Ibercaja Foundation’s values and actions are aligned with the United Nations’ Sustainable Development Goals (SDG) and its passion for achieving a more well-balanced society brings this commitment to all the organisations and companies it works with. It is also a player in implementing the SDG in order to reach the targets set in Agenda 2030 while publicising them as a lever to raise public awareness about the importance of attaining them.

All this means that every year over a million people have a better future.
MISSION, VISION, VALUES

MISSION

Fundación Ibercaja purpose is to create, conduct and promote social and cultural projects which drive development in its field of action and also to ensure appropriate management of its stake in Ibercaja Banco, SAU.

VISION

To be recognised and appreciated by our stakeholders due to the enormous value of our actions and as a benchmark for society because of our ability to drive people development.

Fundación Ibercaja is committed to the development of people and companies through actions which improve the employability of professionals and promote the transformation of the business community. To this end it has in place programmes and tools which support and enhance the training of young people, entrepreneurs, professionals and companies in all the areas where it conducts its activities.

Personal growth is crucial to ensure that society as a whole is able to move forward and achieve greater well-being. Accordingly, we strive to carry out projects addressed to the most vulnerable groups with a view to fostering a more inclusive society in which we all have the same opportunities. At the Ibercaja Foundation we are involved with:

- **FAMILIES,** working on:
  - Recreational and free-time activities.
  - Actions for children.
  - Environmental awareness programmes.
  - Promoting digitalisation across all social groups.

- The **ELDERLY,** with the emphasis on:
  - Spreading the word about the importance of health.
  - Putting on topical talks.
  - Promoting digitalisation.

- **VULNERABLE GROUPS** through our own programmes and in conjunction with others:
  - Job placement for people at risk of exclusion.
  - Disability.
  - Poverty.

Identified with Goya and his legacy, the Ibercaja Foundation enhances his work and makes it available to the general public. It does this through the Goya Museum, its permanent collection and activities as well as partnerships with other museums and travelling exhibitions. Likewise, the Ibercaja Foundation is a standard bearer for Aragon’s values and history and runs a range of actions in the area that help to preserve and spread Aragonese heritage inside and outside the region.
Fundación Ibercaja will promote and drive projects of special strategic significance in its areas of action designed to boost the economic, social and cultural activity of the region and generate new opportunities.
Museo Goya. Colección Ibercaja-Museo Camón Aznar is the gateway to the legacy of the painter Francisco de Goya y Lucientes which brings the graphic and pictorial work of the great Aragonese painter to audiences of all ages. The core of the museum consists of 19 works by Goya and several complete series of his prints. There are also 500 works on display by artists who were prior, contemporary or subsequent to Goya which help to contextualise his genius and understand his impact on the history of art.
The Ibercaja Patio de la Infanta, the architectural jewel of the Zaragoza Renaissance, was the central part and the only one remaining today of the Zaporta House, the mansion that Gabriel Zaporta, a Jewish convert to Roman Catholicism and noble banker of Aragon, had built in 1549 in Zaragoza as a gift for his wife Sabina de Santángel. Today the Princess’s Courtyard is a leading cultural centre in the city where selected exhibitions, concerts and shows are held that take up the intellectual tradition of Teresa de Vallabriga and the enlightenment thinkers who met there.
MOBILITY CITY

This pioneering project aims to turn Zaragoza into a hotspot for innovation in the automotive industry and sustainable mobility, a key production sector in the current and future economy. The initiative is in the Bridge Pavilion where the most innovative companies in all mobility-related sectors can set up shop.
